

Environmental Policy Statement

Our company is a leading manufacturer of temperature controlled refrigerated vehicles, commercial vehicle bodies and trailers. We invest both time and resources in our Environmental Management System (EMS) to achieve this goal. Much of the work which is undertaken by Quinn RV is designed to provide improvements to the environment.

Quinn RV is committed to ensuring that the company's activities are conducted in a manner that maintains the highest environmental standards at the design, planning, execution and operational stages of each of our projects.

We aim to achieve this by the following means:

- Ensuring that our policy is appropriate to our business and is adequately communicated.
- Resourcing and supporting our EMS.
- Complying with all applicable laws, regulations, standards and codes of practice.
- Assessing our current status on Environmental issues by maintaining a register of aspects and impacts for our operations.
- Setting, documenting, communicating and reviewing objectives and targets.
- Fostering an ethos of continuous improvement and shared learning.
- Identification and prevention of pollution.
- Minimisation of waste and finding ways to re-use and recycle materials.
- Early identification of hazards so that mitigation measures or alternatives can be put in place.

To emphasise the importance of good environmental practice Quinn RV will communicate this policy to our employees and partners, and will seek their active cooperation in its achievement. Quinn RV will seek to advise and influence our clients in achieving sustainable design and construction solutions. The directors and management require the active co-operation and commitment of all members of staff to ensure the effective implementation of this policy. This policy and associated procedures shall be formally reviewed annually or as a result of changes in legislation, scope or performance.
